If you require any information to be returned to you please tick here

A5 - Entry Checklist

Please read all of the following carefully, then sign and date to confirm your entry below.

Qualifying criteria

The significant portion of the entry must have taken place in the 18 month period January 2008 - June 2009 - however, we accept that many programmes and products have longer life spans than 12 months.

We welcome entries that have an international element but the significant portion must have taken place in the UK or Ireland.

Entries must be new - products which have merely been revamped slightly or programmes which have run virtually unchanged for a number of years are not eligible.

Although we want you to keep your entry to about 400 words, we encourage you to provide supplementary material.

Make your entry form clear, coherent and concise

You need to make your case in a clear, interesting and persuasive way. The judges have many entries to assess, so they are more likely to appreciate a form which is short and succinct.

Structuring an entry

The entries that work best are those that include:

- An explanation of customer or market need
- An explanation of a problem and how it was solved
- The reaction from market, customers, staff
- A good summary of how the judging criteria have been met
- Present facts, be specific
- Give good examples
- Testimonials where available help a lot
- Be visual with photographs, camcorder, diagrams etc
- Include a product where appropriate

Judging

Judging for this award will take place in June 2009. A renowned panel of industry experts will independently judge the award. The judges' decision is final and they also reserve the right to reallocate an entry into a different category. In each category, the judges will select a small number of companies or projects for inclusion on a shortlist.

A6 - Declaration
